

Waterless Car Wash Concentrate

Waterless Car Wash Concentrate is a ceramic infused modern presentation of an active three-in-one waterless wash detailer. This specialized formulation was designed to effortlessly deliver a clean, finished surface, generate a superior amount of shine and protection using the latest in silica resin technologies.

This silica-infused waterless wash formulation delivers a gentle, safe, and effective means of cutting through dirt, dust, grease, and grime while remaining streak-free each and every time.

Applications

Recochem Waterless Car Wash Concentrate is more durable than conventional waxes or sealants and contributes to protection from harmful UV rays and the elements. This hydrophobic formulation produces a self-cleaning surface and is safe and effective on all substrates including:

- Paint
- Glass
- Wheels
- Plastic
- Rubber moulding
- Chrome – whether already coated or not!

Recochem Waterless Car Wash Concentrate is truly a multi- purpose detergent and cleaning solution for many applications.

Performance Features and Benefits

Recochem Waterless Car Wash Concentrate is made to clean thoroughly through dirt, grease, and other contaminants, leaving behind a silica infused durable layer of protection.

- **Excellent Cleaning Performance**
Advanced surfactant & lubricants eliminate dirt without harming your car's paint or wheels. Recochem Waterless Car Wash Concentrate leaves your motorbikes, cars, boats, or RVs looking clean, shiny and protected, without streaks.
- **Advanced Ceramic, Polymer Protection**
Infused with ceramic nano coating silica technology this innovative blend acts as a sealer and armor for your perfect finish. Safe on wheels, glass, chrome, metal, and other exterior surfaces.
- **Easy to Use**
Recochem Waterless Car Wash Concentrate is an iconic ceramic coat car sealant 3-in-1 formula that adds depth, a mirror finish car polish like shine, and UV protection for durable, long-lasting results. It's ready to use, just spray it on and wipe it off.

Health & Safety

Guidance on Health and Safety is available on the appropriate Safety Data Sheet, which can be obtained from your Recochem representative.

Shelf Life

When stored undercover, away from moisture and direct sunlight, this product should be suitable for use for up to five years after the date of manufacture.

Protect the Environment

Take used products to an authorised collection point.
Do not discharge into drains, soil or water.

Typical Physical and Chemical Characteristics

Recochem Waterless Car Wash Concentrate	Performance
Appearance	White Liquid
pH	4.25 - 5.25 @ 25°C
Odour	Fruity, Sweet, Floral
Flash Point	>100°C (Closed Cup)
Specific Gravity	1.02 g/mL @ 25°C
Density	8.5 lbs/gal @ 77°F
Viscosity	10 cSt (Water-Thin)
VOC Content (CARB)	0.16% by wt.
VOC Content (EPA)	0.17% by wt.
Solubility in Water	Completely Miscible

These characteristics are typical of current production. Whilst future production will conform to Recochem's specification, variations in these characteristics may occur.

Preparation and Application

Recochem Waterless Car Wash Concentrate is uniquely formulated using a proprietary blend of cleaning surfactants, lubricating polymers, chelates, natural emulsifiers, and silica film-formers to engineer a detailer that is ready to spray on – no additional water is required!

Instructions:

- Inspect paint for larger dirt particles or grit. Do not use on extremely dirty finishes.
- Spray product liberally onto the area to be cleaned, starting from the top and working down.
- Using a waffle-weave towel, or a plush towel of your choice designed for waterless washing, lightly wipe the towel across the surface.
- Rotate the towel to a fresh side and repeat, working in straight lines. Work top to bottom, leaving the lower sections last.
- Use additional towels as necessary once all clean sides have been expended or saturated.
